

OPTION 3025

Keypad Lock Option

The keypad lock option is used to prevent un-authorized access to the programming menu. When this option is ordered, a new sub-menu called "CODE" appears at the end of the programming sequence. .

Three levels of keypad lockout are available:
Level 0 - Full access to programming menu.
Level 1 - User only has access to alarm setpoint values.
Level 2 - Total programming menu lockout.

If this option is ordered, the factory default is "Lev 0".

If the keypad has been locked with either level 1 or 2, then the word "PASS" will appear on the display

To enter the menu, press *, left arrow, up arrow and then the "circle" key
